

# STARKVILLE UTILITIES RESIDENTIAL RATE--SCHEDULE RS

**(November 2018)**

(Convenience Copy Only and Does not include Monthly Fuel Cost Adjustment)

## Availability

This rate shall apply only to the electric service to a single-family dwelling (including its appurtenances if served through the same meter), where the major use of electricity is for domestic purposes such as lighting, household appliances, and the personal comfort and convenience of those residing therein.

## Character of Service

Alternating current, single-phase, 60 hertz. Power shall be delivered at a service voltage available in the vicinity or agreed to by Distributor. Multiphase service shall be supplied accordance with Starkville Utilities' standard policy.

## Base Charges

Customer Charge: \$15.97 per month

Energy Charge: Current Period 9.025¢ per kWh per month

## Adjustment

The base energy charges shall be increased or decreased in accordance with the current Adjustment Addendum published by TVA. In addition, the base energy charge and the hydro allocation credit shall be increased or decreased to correspond to increases and decreases determined by TVA under Adjustment 4 of the wholesale power rate schedule applicable under contractual arrangements between TVA and Starkville Utilities.

## Minimum Monthly Bill

The base customer charge, as reduced by the hydro allocation credit, constitutes the minimum monthly bill for all customers served under this rate schedule except those customers for which a higher minimum bill is required under Starkville Utilities' standard policy because of special circumstances affecting Starkville Utilities' cost of rendering service.

## Payment

Bills under this rate schedule will be rendered monthly. Any amount of bill unpaid after the due date specified on the bill may be subject to additional charges under Starkville Utilities' standard policy.

## Single-Point Delivery

The charges under this rate schedule are based upon the supply of service through a single delivery and metering point, and at a single voltage.
